

## All I Need From You

Selah Sue

Hold me in your arms, hold me in your arms,  
Hold me in your arms,  
Watch the world around us  
Fading to the dark  
And dissolve completely.  
Embrace me with your heart, my love,  
As my lips start shaking.  
Lie inside my skin, all my blood is pouring.

And all I need from you is love,  
A light will shine through me with love,  
I'll always be in love with you.  
And all I need from you is love,  
My eyes will always see it's love.

Just hold me down, my love,  
Let it last forever.  
And whisper words of love,  
I love you more than you'll ever know.

And all I need from you is love,  
A light will shine through me with love,  
I'll always be in love with you.  
And all I need from you is love,  
My eyes will always see it's love.
