

I Truly Loved Ya

Selah Sue

I truly loved ya
I saw the tears in your eyes and still
I did adore ya
For the ways you filled me in

And after that, yeah
I truly lived in the past
I do, yes I do

And than you came in
And you would say 'Let us sees the day'
And that all worries, all worries fade away

And we would meet some guys
With the best hairstyles
We would have the time of our lives

We were young and we were never apart
True soul mate hearts
We were having fun, but it was more than that
You could read my mind

Yes, I truly called ya
Every day for eight years
And then I told ya every little mental fear
And after that I died a bit

Cause those were the days
The joy of my life
Remember that, yeah
And now we are older and yeah yeah
But I will never forget

And that those were the days
The joy of my life
Remember that, yeah
And now we are older and yeah yeah
But I will never forget
Is how could that do that (3x)
