Joy Every breath of air was a silent prayer I was longing for your face And I wondered why All the years went by Without a single trace Anticipating, Lord we've been waiting Just watching the days come and go But now we know Joy And the angels sang, there was Let the whole world know this Joy Our King has finally come Here is the promised One Set the captives free Tell the broken reed Hope has been restored And the one who cries For the wandering child Her tears are not ignored Father in Heaven You gave us reason to see past The pain of today We Celebrate Joy And the angels sang, there was Joy Let the whole world know this Joy Our King has finally come Joy Here is the promised One Joy And the angels sing Joy

Let the whole world know this
Joy
Our King has finally come
Joy
He is the promised One
Unending hope for all time
When the King of the ages arrived
Joy
And the angels sang, there was
Joy
Let the whole world know this
Joy
Our King has finally come

Joy
Here is the promised One
Joy
And the angels sang, there was
Joy
Let the whole world know this
Joy
Our King has finally come
Joy
Here is the promised One

Joy (let the angels sing)
Joy (let the angels sing)
Joy

We've waited so long for this day to come The One the Father sent to save us We've seen with our own eyes we've seen The Promised One

You gave us reason to see past the pain of today We've waited so long for this day to come We've seen with our own eyes
The Promised On
