

Timeless

Selah

Time, it's changing me
It's hard to see who I am
Touched, I'm touched by
Many things
So many things I don't
Understand

But seasons pass and I discover
Above all this there's another
Helping me to hold on to what
Is timeless

So the autumn can color me gold
And the winter can dress me
In snow
But it's You I see,
The timeless part of me
In the springtime I'm young
Once again
In the summer I dance on
The wind
But it's You I see,
The timeless part of me

Change, whether it's good or bad
You know I'm glad You're in
Control

Oh Lord, if I don't understand
I know Your hand will shield my soul
Seasons pass and I discover
Above all this there's another
Helping me to hold on to what is timeless
