

Live Like There's No Tomorrow

Selena Gomez & the Scene

1. If time can turn in to day & we left too many things to say
If we could turn it back what would we want to change
Now's the time to take a chance, come on we gotta make a stand
What have we got to lose, the choice is in our hands

And we can find a way to do anything if we try to

R: Live like there's no tomorrow
('Cause all we have is here right now)
Love like it's all that we know
(The only dream I ever found)
Believe in what we feel inside
Believe & it will never die
Don't ever let this life pass us by
Live like there's no tomorrow

2. If there never was a night or day & memories could fade away

Then there'd be nothing left but the dreams we made
Take a leap of faith & hope you fly,
feel what it's like to be alive
Give it all that we've got & lay it all on the line

And we can find a way to do anything if we try to

R: Live like there's no tomorrow...

*: Be here by my side, we'll do this together
Just you and me
Nothing is impossible, nothing is impossible

R: Live like there's no tomorrow...
