

# Off the Chain

Selena Gomez & the Scene

Twisted  
You've shaken my existence  
When I'm with you baby bliss is  
All I've come to know

Running  
I didn't see it coming  
Blinded it's so stunning  
Don't wanna let it go

A thousand church bells ringing I can  
Hear the angels singing when you  
Call my name  
Your love is off the chain

The chemistry is crazy and you  
Make me feel amazing and I  
Can't explain  
Your love is off the chain

Coming  
Just keep the magic coming  
You got me baby, crushing  
But it feels like something more  
Just when  
When I least expect it  
You make it feel so epic  
Like nothing I've felt before

I'm not the kind who gets crazy for someone  
Odds of me trippin' are like next to nothin'  
Guarded my heart like a diamond ring  
But love  
Your love  
Changes everything
