

Off the Chain

Selena Gomez & the Scene

Twisted
You've shaken my existence
When I'm with you baby bliss is
All I've come to know

Running
I didn't see it coming
Blinded it's so stunning
Don't wanna let it go

A thousand church bells ringing I can
Hear the angels singing when you
Call my name
Your love is off the chain

The chemistry is crazy and you
Make me feel amazing and I
Can't explain
Your love is off the chain

Coming
Just keep the magic coming
You got me baby, crushing
But it feels like something more
Just when
When I least expect it
You make it feel so epic
Like nothing I've felt before

I'm not the kind who gets crazy for someone
Odds of me trippin' are like next to nothin'
Guarded my heart like a diamond ring
But love
Your love
Changes everything
