

# Summer's Not Hot

Selena Gomez & the Scene

The summer's not hot to me, it's not hot to me  
No matter what the temperature reads

The heat is blazing like the Fourth of July  
I've got the air conditioner blasting on high  
So just grab something cool and jump in your ride  
Pick up everybody, I'll be waiting outside

Ohh Ohh Ohh  
The summer's not hot without you  
Ohh Ohh Ohh  
The summer won't start without you  
The temperature is 99, and it can't get much higher  
So come on over Romeo and vamos a la playa  
Ohh Ohh Ohh  
The summer's not hot  
The summer won't start without you

The summer's not hot  
The summer's not hot  
The summer's not hot 'til you show up

You're the reason that I jump in the pool  
'Cause you're so hot that I gotta get cooled off  
And about your friends, you can bring them along  
Hurry up and meet me- there's a party going on

In my heart it's freezing, I am wearing a bikini  
And I know the sun is beating down  
Wherever you may be
