

Whiplash

Selena Gomez & the Scene

1. Oh baby, moonlights hits the spotlight
I'm on my flight to take you away
I'm feeling so free, you're makin me crazy
That's what you do, that's what you do
Let's go now!
Lickety split, a girl and a bear
She crawls in a pit
Say hello darling
Twisted insanity, fallen humanity
All I want is some tranquility
Do you hear me? Do you hear me?
Well come on, boy

R: Come on
And take me to the other side
I'm goin' away
When I look into your eyes
I'm so in love
I think I'm gonna crash
And get whiplash whiplash whiplash
It's up to you
And I don't wanna give you clues
We're movin fast
I think we got enough to lose
So don't look back or else we're gonna crash
And get whiplash whiplash whiplash

2. Like a first kiss with a sweet list
Of some love songs, oh yeah, and with this melody
Falling over me, it makes me weak
So dang weak, so let's go now
Lickety split...

R: And take me to the other side...

*: La la la la la la la
La la la la la la la
La la la ohh yea
La la la la la la la
La la la la la la la
So let's go now
Well come on

(hrajte stejně jako sloky)

R: And take me to the other side...
