

# I'm Getting Used to You

Selena

Wasn't like me to fall in love,  
that's just the way that I was  
But now when I feel you holding me  
Something inside just tells me  
you've gotten to this heart of mine  
And now I know it's true 'cause darling I'm...  
Darling I'm starting to find...  
I'm getting used to you  
Ooh and I'm loving every  
single thing about you  
I'm getting used to you  
And I could never get used  
to living without you

Didn't think that a love could mean that much  
But you sure changed my mind with your touch  
Never knew that my heart could need you so  
Now I know that these arms can't let you go  
No they wouldn't even try  
Cause they're sure that you're the one that I...  
Oh one that I need in my life

I'm getting used to you  
Ooh and I'm loving every  
single thing about you  
I'm getting used to you  
And I could never get used  
to living without you

You've gotten to this heart of mine  
And I know it's true 'cause darling I...  
Oh darling I'm starting to find  
You're the one I need in my life

I'm getting used to you  
Ooh and I'm loving every  
single thing about you  
I'm getting used to you  
And I could never get used  
to living without you  
Ain't no living without loving you
