I'm Getting Used to You

Wasn't like me to fall in love, that's just the way that I was But now when I feel you holding me Something inside just tells me you've gotten to this heart of mine And now I know it's true 'cause darling I'm... Darling I'm starting to find... I'm getting used to you Ooh and I'm loving every single thing about you I'm getting used to you And I could never get used to living without you

Didn't think that a love could mean that much But you sure changed my mind with your touch Never knew that my heart could need you so Now I know that these arms can't let you go No they wouldn't even try Cause they're sure that you're the one that I... Oh one that I need in my life

I'm getting used to you Ooh and I'm loving every single thing about you I'm getting used to you And I could never get used to living without you

You've gotten to this heart of mine And I know it's true 'cause darling I... Oh darling I'm starting to find You're the one I need in my life

I'm getting used to you Ooh and I'm loving every single thing about you I'm getting used to you And I could never get used to living without you Ain't no living without loving you Selena
