

Missing My Baby

Selena

Sometimes at night when I go to sleep
I hold my pillow tight,
thinking of you 'til it hurts
But in my mind, I know you're mine
And somewhere you're thinking of me too
I miss you, thinking of you
You're always on my mind

You're always on my mind, (day and night) day and night
When I think of you, everything feels so right
Well I often think of the happy times we spent together
And I just can't wait to tell you that I love you

Time keeps passing by, (you're not here) you're not here
I feel so all alone when I don't have you near
But I often think of the happy times we spent together
And I just can't wait (just can't wait) to tell you that I love
you

I'm missing my baby, missing my baby (missing my baby)
I gotta hold you tight, and never let you out of my sight
Missing my baby, (missing my baby) missing my baby (I miss you)
I gotta feel your heart beat (your heart beat) next to mine
Gotta feel it (feel it)

Time keeps passing by, (time keeps passing by) you're not here
I feel so all alone when I don't have you near (thinking of you
)
But I often think of the happy times we spent together
And I just can't wait to tell you that I love you

I'm missing my baby, missing my baby (missing my baby)
I gotta hold you tight, and never let you out of my sight
Missing my baby, missing my baby (I miss you)
I gotta feel your heart beat (your heart beat) next to mine

Thinking of you, is all I do,
it's the next best thing
To being with you and baby - hey

Gotta have you (have you), gotta hold you (hold you)
Got to have your lovin' (I gotta have you)
And tell you that I love you
And I really miss you (I miss you)
