

Binocular

Self

With all the force behind a driving engine
When all your homies focus their opinion
No conformation, found you floating underwater when..

She's so binocular
She's so binocular
Bet you ya knock her up
(2x)

When all the angels plotted their descention
From the heavens down to the dirt
Found the devil lighting fire underwater when..

She's so binocular
She's so binocular
Bet you ya knock her up

Candy coated superballs
Hail upon uncompleted malls
If it amounts to anything at all
I was drunk when i agreed to this

With all the force behind a driving engine
When all your homies focus their opinion
No conformation, found you floating underwater when..

She's so binocular
She's so binocular
Bet you ya knock her up
