

## Binocular

Self

With all the force behind a driving engine  
When all your homies focus their opinion  
No conformation, found you floating underwater when..

She's so binocular  
She's so binocular  
Bet you ya knock her up  
(2x)

When all the angels plotted their descention  
From the heavens down to the dirt  
Found the devil lighting fire underwater when..

She's so binocular  
She's so binocular  
Bet you ya knock her up

Candy coated superballs  
Hail upon uncompleted malls  
If it amounts to anything at all  
I was drunk when i agreed to this

With all the force behind a driving engine  
When all your homies focus their opinion  
No conformation, found you floating underwater when..

She's so binocular  
She's so binocular  
Bet you ya knock her up
