

## Gotta Stop (messin' About)

Self

Sittin' outside your door, about to break down  
Fourth time this week somebody's come around  
Who's it gonna be tonight, who's the lucky man  
Where you get the attitude, I'll never understand  
Uh oh, here he comes now, so happy that he came  
Hey! was it good boy? [thoughts on, of her aim]  
What goes on inside your head that makes you want to take them  
all to bed?

Gotta stop, gotta gotta stop, messin about  
You know you gotta stop, gotta gotta stop, messing about

When I call you on the phone, you act so unconcerned  
(I wanna) I wanna get you all alone (ooh baby) to show you what  
I've learned  
Why you won't give me the time of day, you won't give me some t  
ime,  
You won't give me anything, God you think you're too fine

Can't you see? all I want is a little time,  
I've been playing with my toy so much I'm gonna go blind.  
Gotta stop, gotta gotta stop, messin about  
You gotta stop, gotta gotta stop, messin about  
Gotta stop, gotta gotta stop, messin about  
You gotta stop, gotta gotta stop, messin about  
You gotta stop, gotta gotta stop, messin about  
You do it too much  
You gotta stop, gotta gotta stop, messin about  
Stop!
