

# I Am A Little Explosion

Self

Hello  
Let's play some music  
Follow me

Let's make some noise with some pots and pans (8x)

Where did you go  
Where could you be  
I better find a way to write back home  
I feel the flow of electricity  
Better call before the fuse is blown

I am a little an, explosion  
I am that's all I am explosion

You once were told you once were free  
I drew a map my destinations unknown  
Morticians faint whenever you breathe  
I'll see the light before I'm buried and bones

I am a little an, explosion  
I am that's all I am explosion

Starlight blinding  
I will go away  
Same old rigmarole  
I will explode

She's in my shadow  
I avoid the street lights  
She loves her sweater  
Clothing is her birthright  
She's heavy metal  
Moshing in the moonlight  
She writes me letters  
Poetry keeps her up nights
