Systematically, I'm in over my head Situation I find embarassing Heeding every warning with the battery's dead Oh No

Systematically, I'm in over my head
The consequences I find disturbing
Fearing every corner where my tired maps lead
Oh No

Imagine a World where every Love Interest failed put out or get out, put out or get out
Imagine a World where every Love Interest failed put out or get out, put out or get of here

Systematically, I'm in over my head Every singe instance unnerving Braving territory where most others fear to listen Oh No

Unfortunately, I'm overloaded in the brain Worthy conversation now boring Tried and trued experiments with nothing new to gain Oh No

Imagine a World where every Love Interest failed put out or get out, put out or get out
Imagine a World where every Love Interest failed put out or get out, put out or get of here

Charismatticaly, guess I'm weighing in shot My heady poetry repulsing Intersellar contact with an obvious denial Oh No

Gotta get out of here
