Suzie Q Sailaway

I'm holding a grudge on her mind While kids with lazer pointers try to fry mine The sky is falling as we patch it with twine I said the sky is falling run for your lives

Somewhere, Someway, Somehow I need airplanes just to bring her down She's so high, so far off the ground Suzie Q Sailaway, just not right now

She climbed the trees behind the house Had to call the Fire Dept. to get her down Feet to the branches from the branch to the wind She shot skyward before they could begin

Somewhere, Someway, Somehow I need airplanes just to bring her down She's so high, so far off the ground Suzie Q Sailaway, just not right now

She's so high (4x)

I can't be Superman today She's taken my Up, Up, and Away The sky is falling and I've just begun To salvage pieces cause they'll be worth a ton

Somewhere, Someway, Somehow I need airplanes just to bring her down She's so high, so far off the ground Suzie Q Sailaway, just not right now
