

Labyrinth

Semargl

No way out from my labyrinth:
Broken mirrors reflect a hopeless fear.
On every turn you face another fail,
On every step you face another trap.
Again and again and again....

Cry, cry, baby, cry,
You're in my labyrinth.
Bye, baby, bye, bye,
Here you will die.

No way out from my labyrinth:
Chase by madness, you escape from yourself.
Trying to steal my mind you fall into the trap of lie.
Now you will suffer from my flout...forever
And ever and ever and ever...
