DND      Now you turn off the phone

How like you to make the whole world disappear and  
How like you to make everithing seem soclear and  
How like you to make me want to stay forever  
Here behind your door.

DND don't disturb us no more

How like you to make your love my hideway and  
How like you to make my troubles slide away and  
How like you to make me want to play forever  
Here behind your door.

- R: Minute I got some space and time I  
Wanted to get me back in the crowd,  
Minute I got some peace you found me  
Trying to make my way to the loud  
What a clown

3. DND Leave the hotel at noon  
DND Will I see you soon?

How like you to make the whole world disappear and  
How like you to make everithing seem soclear and  
How like you to make me want to stay forever  
Here behind your door.

- R: Minute I got...
