

## Everyone I See

Sense Field

There's a day I see ahead  
There's more room than a fork in the road  
And I took the same thing  
And I feel so far from home  
There's a life I see ahead  
There's more than a fork in the road  
Self-instruction theory of exactly what to do,  
Everyone I see is you  
Everyone I see is you  
My minds been playing tricks on me  
I stumble over something strange  
You make me want to want you more  
And I took the same thing  
I feel so far from home  
There's a life I see ahead  
There's more than a fork in the road  
Self instruction theory of exactly what to do,  
Everyone I see is you,  
Everyone I see is you,  
Everyone I see is you  
My minds been playing tricks on me  
I stumble over something  
You make me want you more  
I can't wait, but I will
