

# Memory

## Sense Field

Like a disease eating away at me  
Your just another drug I'm an addict of  
I can't play your fucked up guessing game  
Jealous and out of my head

I know why you want me around  
You've got someone to push around  
And when I'm free, you're nothing but a memory  
And when I'm free, you're nothing but a memory  
And when I'm free, you're nothing but a memory  
I hope my memory fades

You'll always hold a place inside my heart  
I'll tear it out of me so I can start  
Feel alive instead of dead inside  
Fucked up and out of my head

I know why you want me around  
You've got someone to push around  
And when I'm free, you're nothing but a memory  
And when I'm free, you're nothing but a memory  
And when I'm free, you're nothing but a memory  
I hope my memory fades, I hope my memory fades

Fades away, fades away, fades away, fades away  
Fades away, fades away, fades away, fades away  
I hope my memory fades, I hope my memory fades  
I hope my memory fades, I hope my memory fades  
I hope my memory fades away
