

# The Horse Is Alive

Sense Field

In my dreams, we were holding hands  
You forgave me now I've been forgiving myself  
In my dreams, we were making love  
Lost in each other now we can be happy again  
In my dreams, I kissed your feet  
When I found you alone, I'll see you smiling sweet..  
The horse is alive, darling we're gonna ride  
Home in a beautiful chariot, darling we're gonna ride  
The horse is alive

In my dream, we found each other  
I gave you the ring, you made an honest man out of me  
In my dream, I found you sleeping  
Right next to the poison, I drank it to be with you  
Now I want to live, live with myself  
Now all things are possible, I know we'll rise like the sun

The horse is alive, darling we're gonna ride  
Home in a beautiful chariot, darling we're gonna ride

The horse is alive

Darling we're gonna ride, home in a beautiful chariot  
Darling we're gonna ride, home in a beautiful chariot  
Darling we're gonna ride, to heaven in a fiery chariot  
Darling we're gonna ride, to heaven in a beautiful chariot
