

Welcome Me

Sense Field

I was out of my head, I knew you could feel it
I never doubted you'd find me out
I'm saying sorry to you, I need you to hear it
I'm sorry to your family and friends
For crashing your precious heart
And I want to help heal it
Can I take off these dirty clothes,
thank heavens you finally know

I want it to work, I want us to feel it, I want us to live
Live to trust each other again, I don't want it to end
I still believe we can trust each other again

Don't run anymore, I can't hide anymore, please
I can't lie anymore, I can't pretend anymore, please
I'm not a big shot anymore, I'm not a tough guy anymore, please
I can't run anymore, I can't lie at all

I'm excessive to say the least, 'cuz I hate to admit it
I still don't want anyone to find out
That your boy was so sick, no one could believe it
Until I kicked myself out of my own bed
Now you know how I feel, you couldn't believe me
Could we feel innocence together again
Now I want us to heal, if you could believe me

Can I take off these filthy clothes,
thank heavens you finally know

I want it to work, I want us to feel it, I want us to live
Live to trust each other again, I don't want it to end
I still believe we can trust each other again
I don't want it to end, 'cuz I still believe in us
Trusting each other again
