

## Need It Today

Sent By Ravens

I drew a line  
Tried to get to heaven  
The mirror was my gate

But I expired  
And didn't even notice  
Until I'd been thrown away

I had to fall to make it through

I found a way to get close to you  
Lose all the pain I've been holding  
It's easy to say I'll get better soon  
But I need it today, I need it today

I fell in love  
It was going perfect  
So I offered her my name

She started to cry  
And said I wasn't ready  
Inside I felt the same

I had to fall to make it through  
I'm taking steps to find the man you knew  
'Cause no one cares the way you do

I found a way to get close to you  
Lose all the pain I've been holding  
It's easy to say I'll get better soon  
But I need it today, I need it today

(Close to you, close to you)

I found a way to get close to you  
Lose all the pain I've been holding  
It's easy to say I'll get better soon  
But I need it today, I need it today

(I found a way to get close to you  
Lose all the pain I've been holding  
It's easy to say I'll get better soon  
But I need it today, I need it today  
I need it today)
