

Cry for You

September

1. I never had to say goodbye
You must have known I wouldn't stay
While you were talking about our life
You killed the beauty of today

X: Forever and ever
Life is now or never
Forever never comes around
People love and let go
Forever and ever
Life is now or never
Forever's gonna slow you down

R: You'll never see me again
So now who's gonna cry for you
You'll never see me again
No matter what you do
You'll never see me again
So now who's gonna cry for you
You'll never see me again
No matter what you do

2. You never heard me break your heart
You didn't wake up when we died
Since I was lonely from the start
I think the end is mine to write

X: Forever and ever...

R: You'll never see me again...

X: Forever and ever...

R: You'll never see me again...

3. You never heard me break your heart
You didn't wake up when we died
Since I was lonely from the start
I think the end is mine to write

Forever and ever
Life is now or never
Forever and ever
Life is now or never
Forever's gonna slow you down

R: You'll never see me again...

Forever and ever
Life is now or never
Forever never comes around
