

Leave It All Behind

September

You wanna leave it all behind

I get up but i keep on falling down
I can hear a storm without a sound
Ive been told this loves all around
but i wake up on my own

I know that your lies become the truth
Promises you make keep falling through
Nothing in this world makes sense but you
You gotta help me understand

Take a little time
Baby tell me why
You wanna leave it all behind

Take a little time
I need a reason why ooh

Baby your the road that leads me home
The reason that my heart wont turn to stone
You told me that I never walk alone
You gotta help me understand

Take a little time
Baby tell me why
You wanna leave it all behind

Take a little time
I need a reason why
You wanna leave it all behind

You gotta take a little time
Because I need a reason why
You wanna leave it all behind

You have my love always
You're not alone...

You wanna leave it all behind
Take a little time
Baby tell me why
You wanna leave it all behind
Take a little time
I need a reason why
You wanna leave it all behind
You gotta take a little time
Because I need a reason why
You wanna leave it all behind

You wanna leave it all behind
