

## Mechanical Babylon

Septic Flesh

A malfunction to the machine  
She chews its screws of sanity  
Loosing parts of human seed  
As she lusts for electricity

Plastic attitude Gray emotions  
Wear your cables and join with me  
Boring lives in entropy  
Incorporeal surgery

Environmental therapy for the genes that threat security  
A new breed of mass murderers  
Instructed from their parents to do the task

Mechanical our whore Babylon

The old hag looks so young in her dress of silicon  
A jungle in her heart made from concrete, glass and metal

Mechanical our whore Babylon

Her kiss of methadone  
is a drug that steals control  
She wants clockwork toy  
disconnected from the physical

Plastic attitude Gray emotions  
Wear your cables and join with me  
Boring lives in entropy  
Incorporeal surgery

Mechanical our whore Babylon

The old hag looks so young in her dress of silicon  
A jungle in her heart made from concrete, glass and metal

Mechanical our whore Babylon
