

Made to believe. Education misleading my way  
A story was told by profiteer's lies  
Rewriting our past and the truth

I was made to believe. Television a story on screen  
All made through deceit by the corporate elite  
The fear controlling our minds

Raise your hands and reach for your God  
Created to fight and kill in this war  
In the end I'm fighting myself

Loud and clear. From far and beyond  
No bullshit from teachers and leaders will change  
What's real inside of my head

My voice. Loud and clear

Do you believe in justice for all  
Or obey unlawful and ruled  
Left. Right. All: A con

Rigged the game from the start  
Don't play me for a fool

My voice. Loud and clear

Do you believe in justice for all  
Or choose to be callous and cruel  
Left. Right. It's all a con

Won't play me for a fool

My choice. Blood in my eyes

Promoting a life made of stereotypes  
Sickens me down to the core

Scars  
Won't  
Break  
Me
