

Dark Wood of Error

Sepultura

I've lost my way
In a dark wood of error
In a crisis, inside deep terror
With fear in my mind, I spot alight!

The're coming after me
Can't reach the light
Three beasts blocked the path
That lead the way to my life

The beast from the UK
The beast from the US
The human beast was unleashed
To solve the problems in the world, but they don't!

Despise their false prophecies
They have no right
I hate what they're doing to my life,
my life!

Can't go on thinking,
they'll really change
Keeps going, their way

Detour of my way,
learn what they say
Detour of my way,
learn what they say
