

## Filthy Rot

Sepultura

I don't live today  
Not in this world we see this way  
I don't cheat a game  
Not in this field we have to play

"Dear, dear land I fought for thee  
And brought thee peace and victory"

Go on cowards  
Go on bastards  
I don't care no more  
All is worse  
All is darker  
I can't breathe this air

"Dear, dear land I fought for thee  
And brought thee peace and victory"

Bloody wires  
Clockwork soul  
What choice is left for me?  
The earth is dying  
Go on humans  
My pain has no gain

"Dear, dear land I fought for thee  
And brought thee peace and victory"
