Gene Machine / Don't Bother Me

Sepultura

You wanna see me hang around
Don't bother me
You wanna know if I'll get down
Can't you see
(Gene Machine)
Stick it in
Shove it up
Are they still humans?
(Dream Machine)
With brown eyes
brown hair
Created scientifically
You wanna see me hang around

Don't bother me
You wanna know if I get down
Oh can't you see
Come on open up your eyes
It is plain to see
Truth is there to be in reality
(Gene Machine)
Are they issues?
Dial-A-Gene...Buy-A-Gene
Take a second look did one just pass by way?
Gene Machine
Gene Machine
You never know one
when you see her
Quite aware
Mistaken identity
Oh. Gene Machine
Under H.I.M.
we pray not take the other
