

# Machine Messiah

Sepultura

Alone away  
Lost, darken rage  
Far from grace a world  
Betrayed come and free the beast  
Can you hear me?  
I want hope

Behold there's a way  
A spark  
A flame  
Won't you feed the needs  
Come and save me  
I need you  
I'll give you everything  
I'll cure humanity  
Shelter security  
I'll make you part of me  
Prepare to feel nothing

The soul is dead  
Your saviour bled  
The soul is dead  
Bow down to machine messiah

Give me your praise  
I'll keep you safe  
The soul is dead  
Bow down to machine messiah

The souls is dead  
Your saviour bled  
The soul is dead  
Bow down to machine messiah

Give me your praise  
I'll keep you safe  
The soul is dead  
Bow down to machine messiah

I'll give you everything  
I'll cure humanity  
Shelter security  
I'll make you part of me  
I have returned
