

Mind War

Do you walk in shadows  
Do you walk with fear  
Do you sleep with anger  
Do you keep it near

Is there ever focus  
When you plan things out  
Gods hands/gods fault  
Just drunk with power

Lost cause  
No coming back  
Lost soul  
There's no regret  
Lost cause  
No coming back  
No thirst mindwar

A war of words  
Battles in your mind  
Contradictions rising  
What's wrong and right

Lost cause  
There's no regret  
Lost soul  
No coming back

I know you've heard it all  
It's no excuse for what's been done  
You know you felt the pain  
When you sat and watched there suffering

We've got sick people in this fucked up world  
It's just ripping away at everything that I feel Just the sight of yo  
u makes me ill  
I wish could wake you up - to make you see this is real

Lost cause  
No coming back  
Lost soul  
There's no regret  
Lost cause  
No coming back  
No thirst mindwar
