

Living with the sin, a dirty world all around  
Another missile speech, as they preach with no leash  
Seven nations threatening the world with a bomb  
Seven sins creating a world from the whomb  
Show me a way, I can live and I'll grow  
There is a way, that we can learn for ourselves  
Written in your eyes the answer is ill  
The anger builds a fire within  
Every lie the system is stained  
A minefield of egos, opinions and words... no more  
Show me the way, I can change, I'll grow  
Show me a road, where I can reach, where I can reach the  
light  
Light at the end of the road  
In this new world, painted black  
Sloth and pride and envious anger  
In this new world, another mark  
Excess and lust with arrogance  
In this new world, without a past  
Atomic shit to fuck with our heads  
In this new world, that's full of crack  
Our children cry, they're lost and mad  
We're lost!  
Show me the way - I need to know - show me the road
