

## Obsessed

Sepultura

I can't stop the fear that's killing  
No denying, hope is dying  
Living in Hell!  
Fear that's killing, no denying, hope is dying  
Living in Hell!

Want that, need that, I must have that  
Hunger endless, restless spirit

Once you taste the pain of sorrow  
No tomorrow, doom upon us  
Living in Hell!  
Once you live it, no forgiveness, rotting sickness  
Living in Hell!

Sleepless nights, inviting terror  
Impending doom of death and horror

First it starts in the brain  
Heavy thoughts that haunt me everyday  
A mental trip of helplessness  
I can't help but believe I was born obsessed

Obsessed

Fear that's killing, no denying, hope is dying  
Living in Hell!  
Fear that's killing, no denying, hope is dying  
Living in Hell!

There's no future but an end  
Hopeless pounding is always deep inside my head  
Unwilling to change, it's just insane  
Lost in dark I fall paralysed

Obsessed

It sneaks its way to haunt reality  
All seems hopeless over valued ideas  
Unwilling to change  
Drifting further into the eternal darkness
