

## Strike

## Sepultura

Bored my symptoms are dead  
Rarest seconds I have to rest  
Time will keep my instinct to seek  
And my urge will bring me revenge

Strike, strike!

It's never been easy to beg  
Rethinking the plan reinventing a man  
I had to learn it all the hard way  
The vengeance strikes deep within

Strike, strike!

I'm not the leader of my acts  
No longer hearing my mind  
I'm living a life underground  
I'm so fucked!

Strike, strike!
