Love is a failure Hate is just another deadly trap Trust is just a moment in life which you should command We've lost you! Who knows who? We've lost you! Pain is faking gain Profit is no relief To lie is to justify another lie you take as truth Who knows who? We've lost you! Death is a part of life As peace is part of war I just need to clear my mind to learn both sides Who knows who? We've lost you!
