

# Lethargy

Serafin

When you need to be mean  
Cold is cold, cold is cold  
And dirt is clean  
So I swooped underneath  
It was o.k., it was o.k.  
For cheap relief

Marry me lethargy, lethargy  
Marry me  
Carry me lethargy, lethargy  
Carry me

So I came overground  
Is when I clung and I clung  
To a cloud.  
Where it drifted, where it was bound  
When I touched and I touched  
Broken sound

Marry me lethargy, lethargy  
Marry me  
Carry me lethargy, lethargy  
Carry me

Wait till I get in my own space  
Wait till I kick in my own face  
Wait till I get in my own space  
Wait till I kick in my own

Wait till I get in my own space  
Wait till I kick in my own face  
Wait till I get in my own space  
Wait till I kick in my own

Marry me lethargy, lethargy  
Marry me  
Carry me lethargy, lethargy  
Carry me

I'm not there...
