

Give Me

Serani

Oooh I like talking on the phone with you
Oooh I like walking on the road with you
But...

Girl I've known you long enough
Plus I know you love it rough
I know you want it
So just give me (just give me)
Baby, let's make history
Let me break your misery
Seeing you lick your lips
So just kiss me

I'm gonna
For, for, for, forever love u
Toni-ight, toni-ight
She gotta
Ser, ser, ser, sercome
To my spot
Toni-ight, toni-I-ight
Gonna seduce you girl
Let me introduce you girl
To ma friend name Jooooohhn
John, ama flirt
I'm no jerk
Let me work it
Work it...

Girl I've known you long enough
Plus I know you love it rough
I know you want it
So just give me (just give me)
Baby, let's make history
Let me break your misery
Seeing you lick your lips
So just kiss me

Spend time with mee
And wine with mee
Let me show you how to do it
Baby, there's nothing to it
You said you knew it
That I could make you come here
I swear...
That I will touch it and make you love it girl
I swear...
That I will ruff it up, take your body to my care
Baby on, and on, and on
I'll be loving you till dawn
So come on
And let's do this

Plus I know you love it rough
I know you want it
So just give me (just give me)
