

# Love In My Heart

Serani

I I've got loo-o-ve yeah  
Woah, woah  
I'm God sent  
Like everybody else  
Woah, woooah

I've got love in my heart  
And God by my side  
There's nothing you can do to hurt me  
When the evil try to break my stride  
I just call out and I pray to my saviour hey

I'm blessed with talent and health and strength  
And dedication that must bring wealth  
Been trying so long  
Tell failure so long  
I'm blessed with my son  
Give praise to the lord for all he's done  
I'm blessed with family  
My people can't you see

I've got love in my heart  
And God by my side  
There's nothing you can do to hurt me  
When the evil try to break my stride  
I just call out and I pray to my saviour

Good ova evil  
I don't fear the devil  
I must go to heaven  
God make me comfortable  
It's on another level  
Some try to ignore him  
But I do I adore him  
He is number one in my life yeah

I've got love in my heart  
And God by my side  
There's nothing you can do to hurt me  
When the evil try to break my stride  
I just call out and I pray to my saviour

I'm blessed with talent and health and strength  
And dedication that must bring wealth  
Been trying so long  
Tell failure so long  
I'm blessed with my son  
Give praise to the lord for all he's done  
I'm blessed with family  
My people can't you see

I've got love in my heart  
And God by my side  
There's nothing you can do to hurt me  
When the evil try to break my stride  
I just call out and I pray to my saviour
