

## Anna

Seraphim Shock

Midnight like animals  
Something in her kiss from long ago  
She whispers softly come to me  
Longing in her eyes  
Take me now and then we'll speak of love

Anna

Red dress on the balcony Santiago moon  
My angels scent envelops me pulls me deep within  
Invite the scars she's sure to leave the demon lives again  
No care for what tomorrow brings  
We only wanted this

Anna

Skin to skin  
Face to face  
Forever one  
For you I wait

Anna
