## **Buried**

## **Seraphim Shock**

Pull close to me It's killing time Dare to believe Breathe deep your light

Leave me tomorrow Hold me tonight Bury deep that knife inside

You'll need me tomorrow Betray me tonight Bury me just one last time

We're goin down Where few have been To live the dream To rise again

Leave me tomorrow Hold me tonight Bury deep that knife inside

You'll need me tomorrow Betray me tonight Bury me just one last time
