

Opium

Serebro

And love is into you and into me...
And love is into you and into me...

I'm inhaling deeply
All your words and nights
I feel that I need you
Near to me so much

I lingered on the end
But fell straight to the heaven
I know that love you

And love into you and into me...
Like opium, like opium
And love into you and into me...
Like opium....uuuu

Reflections on the water
Secretly disappear.
And hot thing in you
My lips opens

I stayed on the end
And inhaled this heaven
I know that love you
