

Paradise

Serebro

You know my scheme
I saw your gleam
Nobody's found so tainted like you
Get in my car
I'll take you far
Just hold me tight cause I'm flawed just like you
You pull on me
Like one two three
Nobody's found so tainted like you
There's no way back
I like this track
Just hold me tight cause I'm flawed just like you

And if you push it in once
And if you push it in twice
And if you push it in nice
I'm gonna hit paradise
And if you push it in once
And if you push it in twice
And if you push it in nice
You're gonna hit paradise

Like silver ball
I'd love to roll
Nobody's found so tainted like you
Don't give a fly
'bout yo last night
Just hold me tight cuz I'm flawed just like you

And if you push it in once
And if you push it in twice
And if you push it in nice
I'm gonna hit paradise
And if you push it in once
And if you push it in twice
And if you push it in nice
You're gonna hit paradise

My bass is like boom boom
It's crazy here don't disappear
And don't be so glum glum
Just try to catch my atmosphere
My diamonds in the sky sky
I like it when you do it nice
Let's go and get so high high
That's what I call my paradise

You do it and I feel the lead is like flowing inside my body
I am like edgy string
And I'm breathing deeply
The temperature in my veins becomes thousand times higher
Finally it's all blown up
And I come

And if you push it in once
And if you push it in twice
And if you push it in nice

I'm gonna hit paradise
And if you push it in once
And if you push it in twice
And if you push it in nice
You're gonna hit paradise
