## **Just Another Day**

## Serena Ryder

I ran outside, right into you, and instantly you said you knew that you were the only one, I'd ever need to know You said you knew the answers and you said, that it's just another day

I came here with a voice, a chance to make a choice an island of a mind, with bridges built with time and now that I can see, why don't you come with me 'cause it's just another day

It's just another day, it's just another day and now that I can see, why don't you come with me 'cause it's just another day

I'm not saving grace, use it all the time sometimes it gets misplaced, denies that it is mine and then I just can't see, I get lost in misery but it's just another day

It's just another day, it's just another day and now that I can see, why don't you come with me 'cause it's just another day

It's just another day, it's just another day and now that I can see, why don't you come with me 'cause it's just another day

Come with me, come with me, come with me, it's just another day .

It's just another day, it's just another day and now that I can see, why don't you come with me 'cause it's just another day.

And now that I can see, why don't you come with me 'cause it's just another day.

And now that I can see, why don't you come with me 'cause it's just another day.
