

## Oceans of Ruby

Serenity

We are the gods that you create  
We're unifying love and hate  
Your belief is tied to our existence  
Still you can't see  
How you disdain humanity  
Devoting crimes to us, divine

Oceans of ruby  
We never cried for pain  
Lost in the dark sea  
You sadly died in vain

How come you kill in our names  
And drown your enemies in flames  
Expecting great reward for this madness  
Your life to come  
No afterworld foreseen by some  
Your paradise illusive lies

Oceans of ruby  
We never cried for pain  
Lost in the dark sea  
You sadly died in vain

Oceans of ruby  
We never cried for pain  
Lost in the dark sea  
You sadly died in vain
