

State of Siege

Serenity

It comes again when the temples are shining in golden light and
day fades away Deep inside there's a feeling that I have not c
hosen well my role in this play All this time I have been a goo
d soldier whose will was strong so I played my part A painful s
ong is the cry of a friend as they raise the knife to cut out h
is heart

I've never tasted fear but now I know fearful nights and days o
f woe Our raging treasure hunt has ended here what's the use of
all gold when death is near?

State of siege a peaceful ending out of reach Our vessels were
burning on the beach The general, he left us no choice but to d
ie in this land

In their eyes we were heralds of gods who would bring liberatio
n Far too late they did realize what we bring is damnation

I've never tasted fear but now I know fearful nights and days o
f woe I've heard my promised piece of land's right here I'll re
sign it, my friend, my death is near!

State of siege a peaceful ending out of reach Our vessels were
burning on the beach The general, he left us no choice but to d
ie in this land
