

# The Chevalier

## Serenity

When silence comes and I focus all on the inside I take a look  
into my past full of wrongs, full of rights, the story of my li  
fe

So many different places, enjoyed so many nights, I danced with  
chances I made my way Until this present day

You are one I'd give my life for You are the one who is hauntin  
g my dreams Oh how I long to be yours for evermore for all time  
our love shall be prime

I still see you dancing...

That night in that shiny hall The same old boring gentry, then  
you caught my eyes You played your game, used all your sweetest  
words I was entertained, but tell me are they true...

...things they say about you A mason and a spy, he knows all be  
ds, escaped the 'Leads' Oh Chevalier tell me another lie

Hold me How can I ? A game ... like all your gambles? The only  
... until this day is gone? Hold me How can I ? A game ... like  
all your gambles? What can I do to change your mind

I'll make this vow tonight

I see all lights are low show me I have to go Venice can ease a  
ll my pain Will do so once again
