

To India's Shores

Serenity

She wears a ruby necklace she's got those emerald eyes her pace
is graceful and her words are wise Hoping my pleading could get
the treaty signed I tried so hard and failed again then something's
changed her mind

So my time has come nothing is impossible, it can be done A course
no navigator's sailed before to India's shores

The conquest of Granada impossible, they said but she has courage
no one's ever had She proved them wrong and so will I my dream
will never die

So my time has come nothing is impossible, it can be done! I'll
sail into the west and showing everyone that nothing is impossible,
I'll be the one to find a course no navigator's sailed before to
India's shores

When I close my eyes I see cities made of gold in a land where
nobody grows old

So my time has come nothing is impossible, it can be done! I'll
sail into the west and showing everyone that nothing is impossible,
I'll be the one to find a course no navigator's sailed before to
India's shores
